

AirSlate Chooses UnderDefense as Its Primary Security Partner

About the client

AirSlate is a unicorn startup that offers market-leading solutions for no-code document workflow automation. The company combines artificial intelligence (AI), robotic process automation (RPA), and other technologies to help enterprises globally improve productivity and optimize resources.

Headquarters:	Massachusetts, USA
Industry:	Technology
Company Size:	1000-5,000 employees
Client Since:	May 2022
Technologies and Tools:	CrowdStrike EDR
Internal IT Security Team:	Yes
Infrastructure:	Hybrid

\$2,099,840

Saved yearly after entrusting security tools, people & tasks to UnderDefense

1200

Covered endpoints and servers

23

Business days to deploy a complex EDR platform to 1200 endpoints without disrupting critical business operations and flows

35

hours weekly saved for IT team in managing Security alerts

“The most impressive thing was the tremendous work done by UnderDefense. We have confidence that our endpoints are now monitored by a top-notch cybersecurity MDR provider, their 24x7 team is very proactive with our IT, DevOps, and Security team and we are sure that none of our servers is at risk of infection and lateral movement when UnderDefense is in place.”

Oleksii Misnik

Information Security Tech Lead, AirSlate Inc.

CHALLENGES

- Lack of security talents and expertise for 24x7 monitoring and detection
- Need for better visibility within the large and hybrid infrastructure
- Selection, integration, and fine-tuning of the best EDR platform
- Strict regulatory compliance requirements that complicate the engagement of external providers
- High cost of hiring in-house security staff for 24x7 monitoring and response

SOLUTION AND RESULTS

- ✓ 24x7 coverage delivered by experienced SOC analysts and professional services engineers
- ✓ Comprehensive protection of the hybrid environment and better response to all malicious security threats
- ✓ Ability to innovate and scale in the cloud while staying secure
- ✓ Enhanced security posture as the business grows and attack surface scales
- ✓ Robust monitoring and reporting that support multiple compliances of the company
- ✓ Effective and safe engagement model that doesn't endanger client's compliance and overall business performance
- ✓ Access to the brightest cybersecurity minds globally with relevant skills and hands-on expertise
- ✓ Win-win collaboration that encourages open and effective communication
